## **The Early Life of Daniel Boone**

Daniel Boone was born in Pennsylvania in 1734 of Quaker parents. Boone's family moved to North Carolina when he was a child, and he grew up in the wilderness, learning the skills of hunting, trapping, and woodsmanship that would serve him well in his later life. With the outbreak of the French and Indian War in 1754, Boone joined the Pennsylvania militia and served as a scout and messenger. He also participated in the victorious British campaign against the Native American Shawnee at the Battle of Bushy Run in 1763.

After the war, Boone returned to North Carolina and married Rebecca Bryan. He continued to hunt and explore the wilderness, and in 1769 he and five companions embarked on a journey to Kentucky, which was then a largely unexplored region. Boone and his companions were the first European Americans to explore the interior of Kentucky, and they played a key role in opening up the region to settlement. In 1775, Boone led a party of settlers to Kentucky and established the settlement of Boonesborough.

Boonesborough was constantly raided by Native Americans, and Boone and his settlers were forced to fight for their lives. In 1778, Boone was captured by a band of Shawnee warriors and taken to their village in Chillicothe, Ohio. Boone was adopted by a Shawnee chief and lived with the tribe for several months. He learned their language and customs, and he gained their respect. In 1779, Boone escaped from the Shawnee village

and returned to Boonesborough bringing with him the knowledge of Native American strengths and tactics.
